ABOUT THE FUND

Goldman Sachs Globalny Odpowiedzialnego Inwestowania invests up to 100% of the assets in the underlying foreign fund Goldman Sachs Global Equity Impact Opportunities. The underlying fund's assets are invested in global stock markets in companies that besides their financial performance have a positive environmental and social impact. The fund has a sustainable investment objective, as described in Article 9 of the SFDR regulation.

HOW WE MANAGE

- Stocks in the portfolio of the underlying fund are selected based on a combination of financial analysis as well as ESG (Environmental - Environment, Social - Society, Governance - Corporate Governance) assessment,
- the companies in the underlying fund's portfolio are selected primarily according to the positive social and/or environmental impact they exert,
- the underlying fund is actively managed and its benchmark is the MSCI AC World (NR) Index. The objective of the underlying fund is not to mirror this benchmark. The underlying fund's investments may materially deviate from the benchmark,
- alongside the underlying fund, under the terms specified in the prospectus, we also have the possibility to invest assets in other financial instruments,
- in the event that, due to reasons beyond our control, investment in the master fund becomes impossible, we may invest in units of other funds providing similar investment exposure to the master fund.

FOR WHOM

This fund is for those who:

- want to invest for no less than 5-year period,
- expect returns higher than bank deposits,
- accept a medium risk class of the fund,
- reckon with the possibility of fluctuations in the value of their investments, especially in the short term, including the risk of losing some of the amount invested.

INVESTMENT RISK

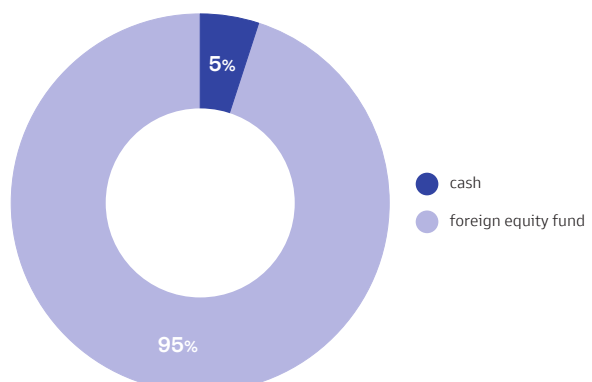

The risk profile is determined based on the methodology used in the Key Information Document (KID) and is current as at the date of this Factsheet. Historical data used to assign the risk category cannot predict the future risk profile of the fund. The fund objective does not include achieving the relevant risk category. The risk and return profile may change in the future. The lowest risk category [1] does not mean risk-free investment.

GLOSSARY

FUND

"Fund" is a common term used to describe various forms of collective investment, including "sub-funds", which are part of our umbrella funds.

PARTICIPATION UNIT

The fund "issues" participation units to investors. They confirm the right to a certain part of the fund's assets and the exercise of other rights arising from participation in the fund. The value of a unit is determined by dividing the value of the fund's assets by the number of units held by all participants.

SFDR CLASSIFICATION

SFDR is Regulation (EU) 2019/2088 of the European Parliament and of the Council on sustainability-related disclosures in the financial services sector. SFDR includes a system of classifying investment products into one of three categories depending on the approach to sustainability issues. In Goldman Sachs TFI, products classified in accordance with Article 6 integrate sustainability risks into the investment process, products complying with Article 8 promote environmental and social aspects, and products classified in accordance with Article 9 have as their objective sustainable investments.

MANAGEMENT FEES

A fixed management fee is the basic remuneration charged by an asset manager for managing a fund. It is set as a percentage charged on the assets of the fund under management on an annual basis. Some companies may also charge a variable fee if the conditions are met in the form of the manager achieving a certain level of performance measured in relation to a specific reference point (e.g. benchmark).

BENCHMARK

A reference index that helps evaluating fund management performance. The following may serve as a benchmark: stock market index, yield of specific treasury instruments or their combinations.

PARTICIPATION UNIT CATEGORY

The participation units of our funds may be available in different categories. They differ in the method and size of fees charged. The basic one is category "A", but there are also those that are sold under employee programs or individual pension accounts.

RATING OF ANALYZY ONLINE

A comprehensive assessment of the fund by an independent analytical firm. The assessment consists of both quantitative parameters (e.g. effectiveness of the fund, repeatability of results, maximum capital drawdown) and qualitative parameters (e.g. the company's market position, transparency or human capital). The result of this analysis are stars (from one to five). The more of them there are, the better the quality of the fund.

DISTRIBUTION FEE

This fee is the distributor's remuneration for intermediation in the sale of shares. It is set as a percentage charged on the amount deposited by investors. The amount of the distribution fee varies from distributor to distributor and usually decreases as the amount of capital paid into the fund increases.
